## Angel Gate Occupiers

Angel Gate has undergone a significant upgrade to its fibre connectivity infrastructure, to deliver fast, reliable and future proof connectivity capability for occupiers.

## Fibre Infrastructure

The estate has a blown fibre backbone installation, which can enable full occupier dedicated connectivity of up to 1GB/second within 3 working days on pre-fibre connected units, and 10 working days for units requiring fibre to be blown within these tubings.

## Additional Capabilities

The connectivity infrastructure also contains a secure dedicated telecoms intake room and a communal satellite dish.

There is also live capability to provide backup services via the fixed wireless connectivity, and up to a 10GB Layer2 connectivity and Dark fibre wavelengths to an Equinix datacentre.

## For further information

Please contact Zetta Connect about how to get connected at Angel Gate.

**Fast, reliable and  
future proof  
connectivity**

**Up and running  
as you move in**

**Connectivity  
of up to  
1GB/second**
